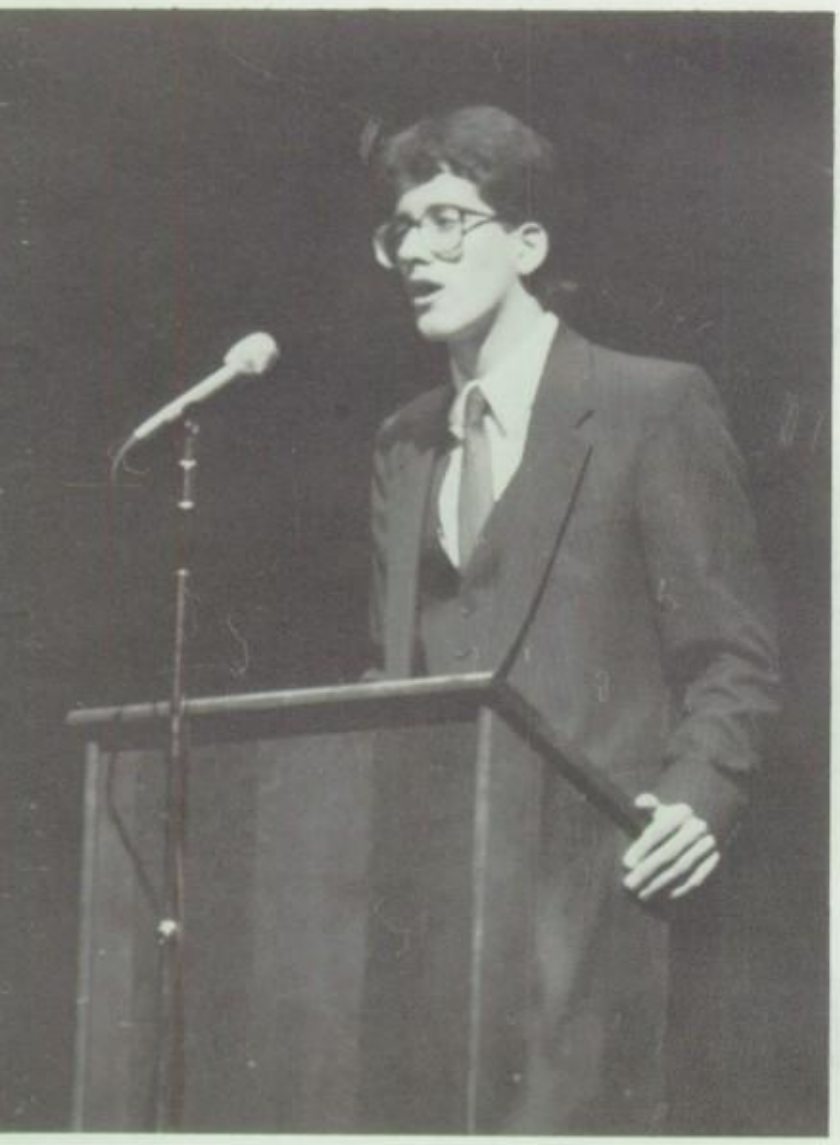
INSTANT CELEBRITIES and enjoying every minute of it is the boy's cross country team after placing in the state meet.

GETTING DOWN TO BUSINESS is Mr. Anlauf as he tries to "sweep" a shot past goalie Brian Ricke during pepfest broomball.

POUNDING OUT THE SPIRIT are Jason Laine and Lori Estepp during a chilly football game.



WINNING STYLE is one of Bruce Wenger's trademarks as a member of the highly-regarded STF debate team.

HIGH-FLYING CHEERLEADERS display the homecoming banner: Amy Spriggs, Lisa Papesh, Natalie Wyatt, Michelle Carpentier, Tawni Reller, Tami McKenzie, Anne Wendt, and Sue Florman.

ST. FRANCIS HIGH SCHOOL

It's not on your way to anywhere, unless of ourse, you're lost.

Most of us wouldn't even know where St. Francis is we didn't go to school here.

But, St. Francis is making a name for itself. The size f the school is growing; it's up to 1,200 students this ear, and the elementary grades are expected to each enrollment peaks and continue growing.

The sports teams are showing that St. Francis High chool does exist. The boys' cross country team articipated in the state cross country meet and id surprisingly well by placing eighth. The boys' asketball team has been a leading contender in egion 7AA, losing in the championship game in '83 nd '84.

There are other organizations at St. Francis that how that academic achievement is just as out-anding. For example, the Marching Band is known hroughout the Rum River Conference as one of the est marching machines around.

The Speech Team is one of the best in the state f Minnesota. If team totals were kept, the STF Speechies" would have been state champions in oth '83 and '84.

And we can't forget the Debate Team. This is the roup that DID win the state championships in '83 nd '84, not to mention the 1983 National Debate hampionship, and finished state runner-up in '85.

Judging by these accomplishments of the past ew years, it means a lot to say "I'm from St. Fran-s."

We can be proud of ourselves, our school, and ur accomplishments. Show SCHOOL PRIDE! Be roud that you're from St. Francis; we're NUMBER NE!

THE SIGN SAYS IT ALL for the outgoing seniors as they congregate for their final opening day pepfest.

It Comes, And It Goes; Will It Ever Stay?

Everyone *needs* money, right? Or is it just that everyone *wants* money? There are so many things we think we need, but really just want. You could be saving up for your college education, but is that the very first thing you think of? So many students have jobs. Some of us hate them and just work for the money, and some of us love our jobs so much that we could almost care less about the money.

The main reason for having (or needing) money is entertainment. Have you ever thought of how much a date actually costs? Well, let's see. There's the movie, the gas to get you there and home again, and the food you eat during or after the movie. Now, that's just a "basic" date. What about an "extravagant" one? You can start saving pennies now. How it all ends up is that we think we could always use more money. Wouldn't it be nice to have TWICE as much?!

St. Francis Is Putting On A New Face

Is St. Francis destined to be a one-mall town?

Not if the community continues to grow the way it's grown in 1984 and '85. Changes are taking shape on our small-town horizon.

Surely you know what city showed the largest percentage of population growth in Anoka County (31 percent increase)?

Surely you know what city showed the third largest percentage of population growth in the entire five-county metropolitan area (behind only Northfield and Vadnais Heights)?

Naturally, it was good old St. Francis! That's us. More and more people are discovering — "We are Saint Somewhere!"

We are experiencing a renewal much like that which the Statue of Liberty is enjoying. We're putting on a new face.

Our horizon has many new additions. The St. Francis Lanes provides a new recreational center with 12 alleys and the new Jockey Club. Royal Oaks housing addition is right in our school's back yard. A new Food-'n-Fuel store appeared on Highway 47 with a trailer park beginning to grow right behind it.

Progress continues to advance up Highway 65 as well. We have another new bowling alley in Ham Lake and a variety of other new places.

Other signs of change have made it a little easier to get here. The old single-lane bridge on County Road 7 was replaced with a regular two-lane bridge. The old route covered by County Road 9 doesn't wind dangerously close to the houses along Lake George any more because a new bypass was opened.

All of this growth is also reflected in the school district. We are growing in numbers. The high school and middle school are practically packed to the max. And predictions are that the first few elementary grades will be getting even larger over the next few years.

The community is on the rise. Farmland and rural areas are steadily giving way to residential developments which are popping up all around us. What do we have to look forward to?

Movie theaters, Fast-food burger restaurants? More friendly people? New schools? Maybe even another mall?

It all points to a positive future. We can stand up and say, "We are Saint Somewhere!"

The First Of Many Lasts

When the day of October 12 arrived, St. Francis High School was ready. Excitement was rising throughout the week, for this was what everyone was waiting for. Coronation and the football game. During the pepfest, the crowning of Queen Shelly Peterson and King Curt Moe took place before the entire student body for the first time. The anticipation didn't end here. The game still had to be played. The Fighting Saints took on the Princeton Tigers, and lost a tough fight by a score of 6-0.

In the eyes of the Senior class, Homecoming signalled the first of many lasts, as each special event would be enjoyed just one last time.

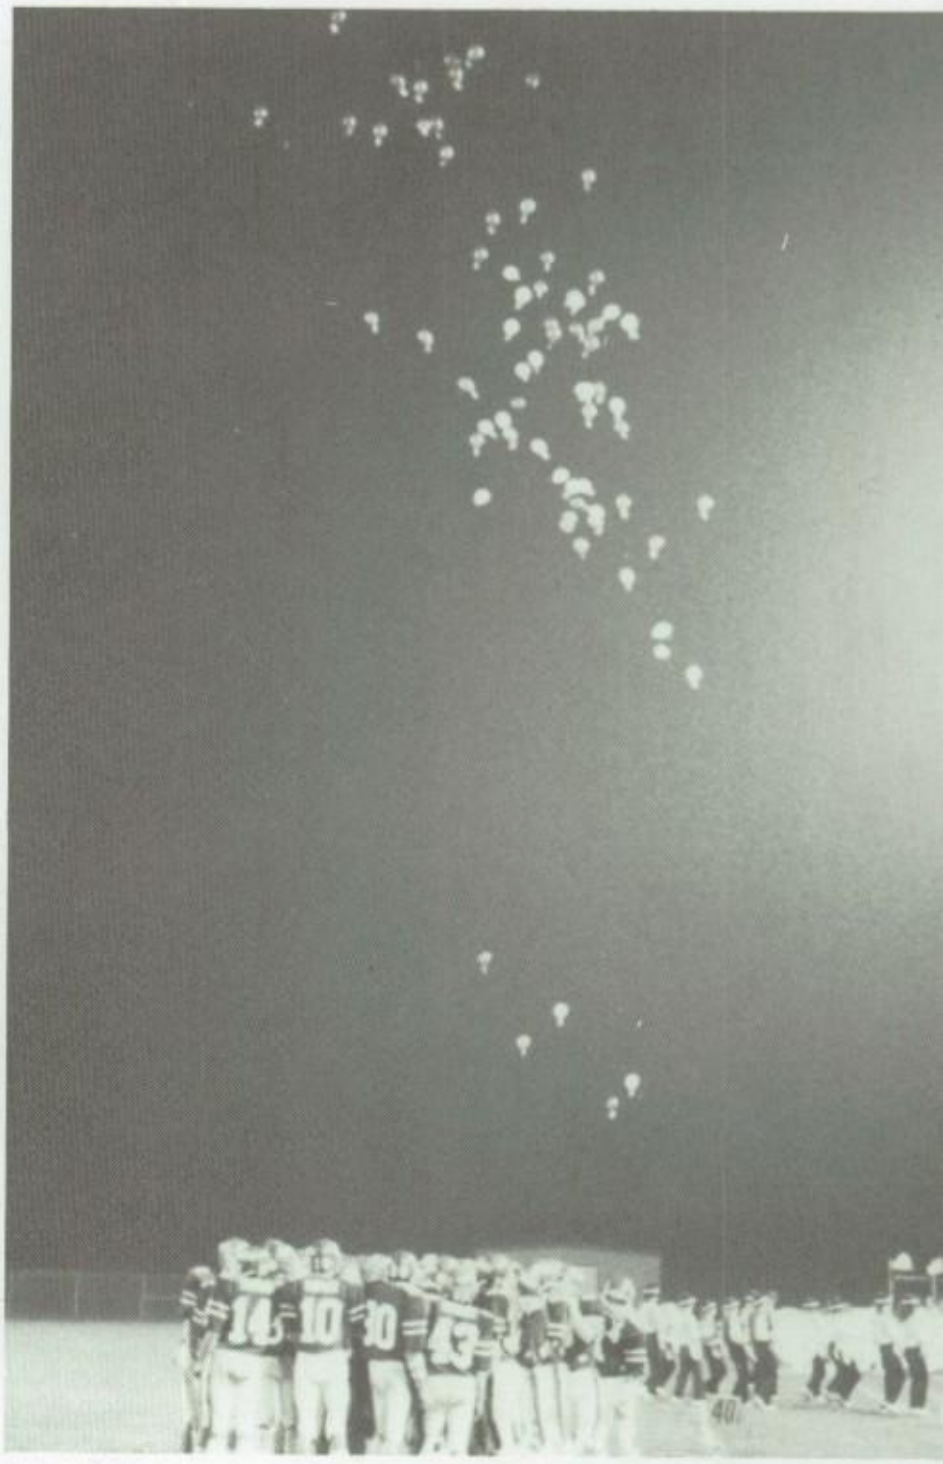
BLUE REIG



UP, UP AND AWAY go the DECA balloons just before homecoming kickoff.

BOLD AND DARING or just total flakes? These cross country cheerleaders provide pepfest antics, "Oh Doi!"

Was it Blue Reign or the Saints crying?! The spirit of Homecoming was throughout the school, but more than school spirit is needed for a "complete" Homecoming.

The 1984 Homecoming was a tradition breaker. In the past, Coronation had been held on the Monday night of Homecoming week. This year, it was held during the pepfest on Friday. It is one way to get the entire school involved. Natalie Wyatt and a few others brought the idea to Mr. Wilbur Nelson, who is in charge of Coronation. Some people were happy with the change, and others weren't.

The gyms were decorated with tinsel chandeliers, signs saying good luck to the candidates and congratulations to the attendants, a bridge to walk over, and pink and purple crepe paper. The flagline lined up before the bridge to add even more color with new uniforms and flags.

The pepfest consisted of Coronation, the 2nd Annual Mini-Parade, the Pinkettes (with two encores), the Cross Country runners doing their version of cheers and leading "The Wave", and the cheerleaders doing cheers. The parade was meant for people to go a little crazy by showing their school spirit. What did you think of Mr. Zschunke in a majorette uniform?! How about Mr. Foley in a flagline uniform? After all, Homecoming was meant to involve the entire school (teachers, students, etc.), and that's exactly what the 1984 Homecoming did.

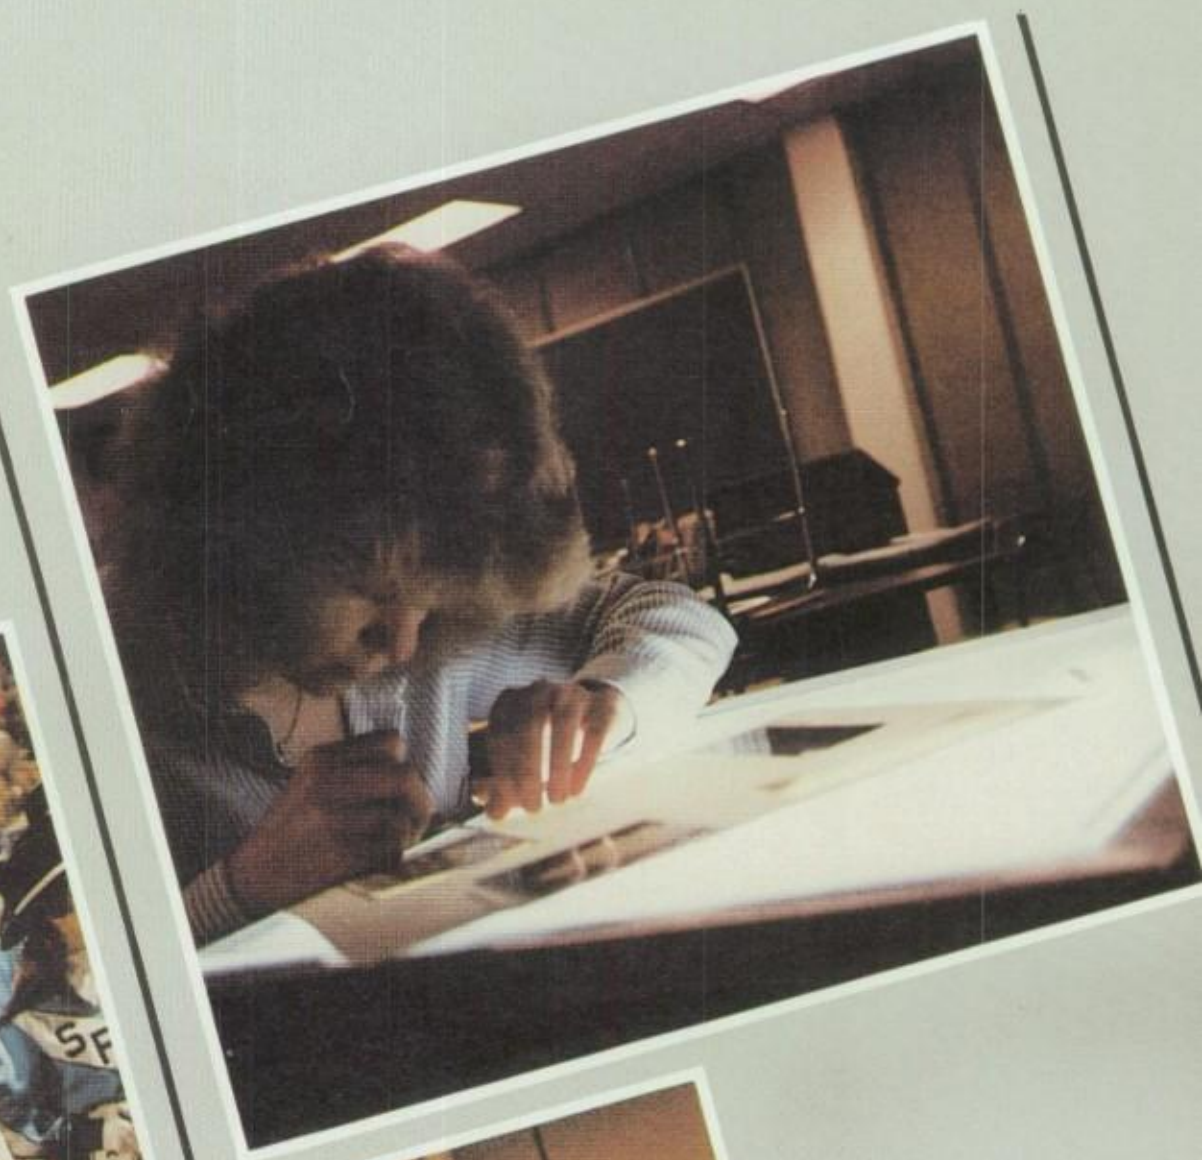
Our Senior Year

CAPTAIN ZOOM SIGNALS THUMBS UP for the Saints during homecoming football. Wacky Dan Zimbeck donned his super hero gear to inspire the fans.



LIGHTING UP HER LIFE in the Crier office is Vicki Grams as she concentrates on preparing a school news page.

CHECKING THINGS OUT in the Lance photo files is Lana Moe as she searches for pictures that yearbook staffers can use to spice up the '85 edition.

We're only seniors once!
And being a senior is something special!

What are some of the things that make it so special?

The first thing we need to consider is having our senior portraits taken. The favorite photographer for the majority of us is Carlson Studio of Cambridge. Finding just the right outfit and deciding on the style of pose that fits us best always seems to be a challenging part of our final year.

Early in the year class officers are elected. Shelley Olson is our president, and she will be in charge of organizing class reunions in the future.

The graduation invitation style is voted on, along with the class color, flower and motto. Before we know it, a representative from Jostens arrives to show us all the wonderful things we can order. Items range from invitations, to memory books, to senior keys, to pocket-size diplomas.

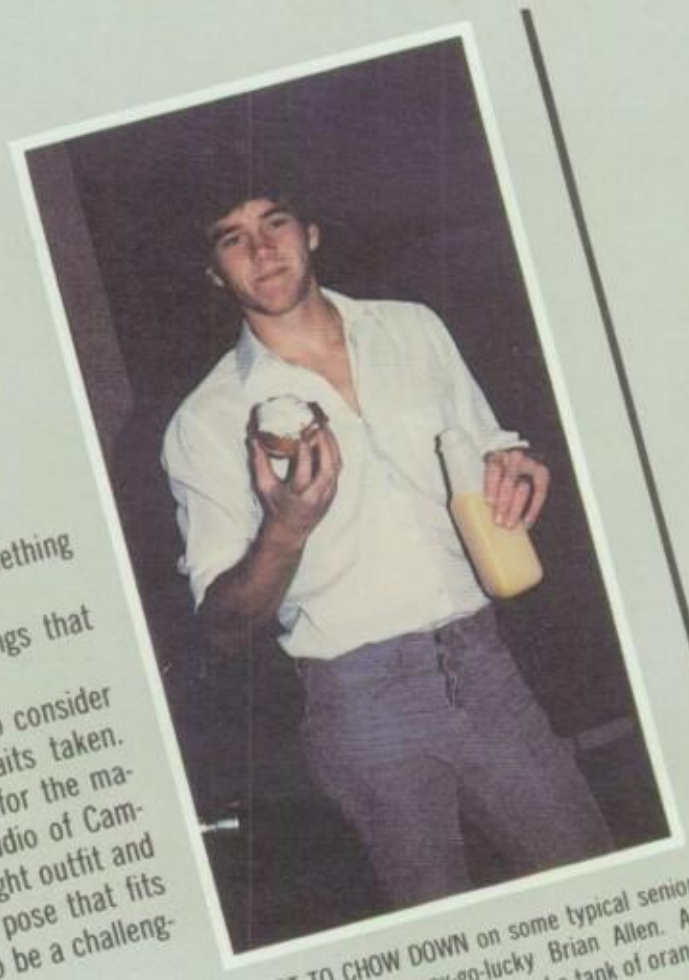
Measuring for caps and gowns makes graduation seem that much closer. Somehow, standing beneath that measuring stick and feeling the tape wrap around your head makes the reality of the situation sink in.

The voting for the colors of the gowns and who will wear what color always has its debates. The ladies of '85 elected to march out in white.

Nearer and nearer the end of our days as Saints, invitations arrive and we start planning for our big, or not-so-big, graduation parties. There are plenty of addresses to locate and cards to sign.

Graduation caps and gowns arrive. That signals excitement. Anticipation runs high. The days to follow, the senior countdown, start the end of the old and the beginning of the new.

Being a senior is really something special!



SET TO CHOW DOWN on some typical senior sustenance is happy-go-lucky Brian Allen. An icing-topped piece of pastry and a tank of orange juice provides a mixture of go-power.

THERE'S DEEP THINKING GOING ON beneath this cap as a serious Brian Talbert shuffles through the cutting and pasting process that helps make St. Francis debaters among the state's very best.

WHAT'S THIS? A GREEN PINKETTE! Bursting bosoms and all, Ms. Keith Boehlke and the Pinkettes provided plenty of pep during homecoming. After straightening her/his lengthy locks, Keith announces another pink performance for the crowd.

advisor, deserved a lot of thanks for his time
assistance in the organizational process.

February 8, 1968 — October 2, 1984

Most of you had so little time to get to know Davey before he was taken from us. Many, I'm sure, meant to meet the new student, but just hadn't taken the time. We always think tomorrow will be ours.

Those of us who had the pleasure of knowing Davey, knew he was kind and warm. He loved little kids and always had time for them. His dream of being in the Air Force was just one of the many he had for the future.

Davey, in life you shared with us your smile and dreams . . . in death you taught us to treasure each moment of life for that is all we really have.

Love, Mandy

Juniors

Juniors becoming juniors becoming themselves

We've learned a few things
this past year, good and
bad.
Some of them just phases,
some of them fad.
The guys want to change,
so they try something
daring,
Like Steve Sylvester, who
got a pierced earring.
The girls pretty much
continue to behave:
Some go with the flow,
Carol went new wave.
On weekends we gather,
to hork and to split.
From 7 till midnight,
we never quit.
You just couldn't catch
one of us alone.
If we aren't together,
we're on the phone.
Our Junior year,
one more to go,
Next year's going to be
great, but probably slow.

A New Adventure

A new way to pass time has been discovered. It originated in mid-February at Kerri Heckenlaible's house. This new past time is called HORKING.

What is horking anyway? As more people hear about 'HORKFEST 85', even more people are asking what everyone is talking about.

To define horking puts me in a very difficult situation — for horking is anything. It involves the imagination. You'll find the very creative will enjoy it the most.

So what is horking? You tell me!

Classmate Passes "Moving" Test

There's a part of growing up that can be very difficult, and it's something many of us don't have to experience.

Moving away and starting over. It's a test of character.

A girl who was a friend to all took this test during the 1984-85 school year. Classmate Laurie VanBrocklin moved to St. Paul near the end of the second quarter.

Laurie was very active in school and school activities. She was a member of the concert choir and a varsity volleyball cheerleader. Her new school is St. Paul Como Park where she plans to become a member of their cheerleading squad.

Laurie is a native St. Francian who will prove herself anywhere.

"Boss Hog" & Cindy Schuster What A Beautiful Pair!

On her faithful donkey, Boss Hog, Cindy chuster earned a tee-shirt and was titled, "Most Valuable Donkey Ball Player."

Boss Hog was very lazy; he would pick any place on the floor to lay down. Poor Cindy would try to drag him across the floor to get to the basketball. Boss Hog did, however, pick some convenient places to lay down, for example beneath the other teams' basketball hoop. This stroke of donkey genius allowed Cindy to score a total of 8 points out of 14 made by her team.

Cindy's team was called the Terminators. Their team captain was Scott Libson. The Terminators, with the help of Cindy and her donkey, made it to the Championship game, where they played against the Stallions led by Captain Paul Tradewell. The Terminators lost the championship game by 2 points in overtime. All the teams were good sports, and the donkeys only crapped once; right Tim Frischmon?

Little Kids With Big Goals

Have you ever noticed the short people we have roaming around our school? If you haven't seen them, look hard! They are there; each with their own special goals. They are members of the new and unique "61 Club." The person who brainstormed this new and exciting club was Mr. Orall Johnson. There's one little restriction, you have to be 5'1", or under 61 inches to be a member. Although they may not be equal in size, they do have equal ambitions. Each month the 61 Club meets to set new goals. This is the first year and already there are 6 members looking forward to newcomers. This new club is setting out to show that success is possible for anyone that strives to succeed. Look around-the little people are on the move!

An Angel In Art

Many SF students are blossoming artists, but we would like to take a special look at freshman Angel Hoglund. Angel has developed a unique skill in the art of calligraphy, which is a form of flamboyant penmanship. She has practiced for four years and has been able to sell her work. She started by printing signs for her cousin's grocery store, and she has progressed to doing greeting cards and poems. Her hopes are to become a commercial artist. So, remember, if you need some calligraphy done, Angel's the one.

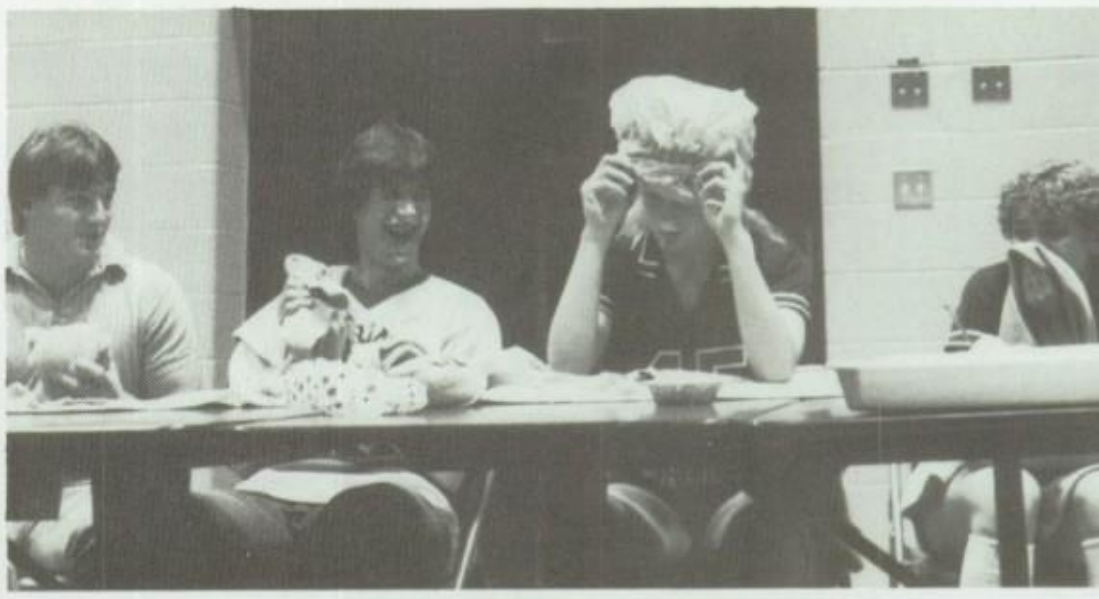
SPECIAL EVENTS

SAINT SOMEWHERE

Pep (?) Fests



Pep Fest. Doesn't mean too much to you? Well, how about PEP FEST!! Still doesn't mean a lot, does it? OK. How about a free hour of school? *Now* it clicks, you say.

Basically, that's what most people seem to think. Another rather basic fact is that our school spirit leaves something to be desired. You must admit, however, that pep fests weren't all totally boring.

What about the time Ms. Hance & Mr. Koehler got pies in their faces? Or the air-bands? If you were to look at the pep fests in a brighter light, they all had something fun or funny about them. How about the time the wrestlers had to guess what "cheerleaders" they kissed when the "cheerleaders" were their mothers?

Whatever you think, Pep Fests weren't created to give you a break from your class or teacher, but as a way to show and boost school spirit. Let's all take that into consideration for 1985-86, OK?

ERDS!! — cutting Footloose (?!?) are Garry Christensen, Wendy Cichanski, Annette Groothausen, Gary Clem, Tina Funk, and Dee Dee Dalve.

Nerds?!?

St. Francis, like any other school, has many different types of people. Jocks & non-Jocks, Brains & non-Brains, and believe it or not, Nerds. Yes — Nerds!!

Our cumbersome nerds are seemingly in their own physiological world. Their world consists of pocket computers, 15 colors of pens, 10 pencils (in case one breaks), and about 17 research books. Oh — they're usually oversophisticated, too. Does anyone specific come to mind?

A description of their clothing may help you take notice. Chances are that you would classify someone as a nerd by their plaid pants, colored shirt, clashing tie, striped socks, and of course their glasses. The most prominent factor, however, may be their hair-doos. (Unless you like greased down, filthy-dirty hair).

The historic, true invasion of nerds began here at fanciful STF during homecoming week, 1984. I guess you can say that the fashion stuck. Just look around. After all, Nerds *can* be palatable people.

SHAKIN' WITH A SMILE is Ilga Polleitis.

What Do All These Have In Common?

They're Dances!

When we were freshmen, just entering the wonderful world of high school, most of us wanted to make sure we went to every school event. And some of the most important events were the high school dances.

As freshmen we had great expectations. We couldn't miss a dance because we heard so much about the great things that go on there.

Going into our sophomore year we began to wonder if we had missed something during our first year. So, we didn't want to miss any dances; just in case that great experience decided to come, we wanted to be there.

Then our junior year hit us. We began to realize that dances no longer had the enchantment they once had. But just in case we were wrong, we still went to as many as we could (depending on whether mom and dad let us have the car).

As seniors our brains began to work. Most of us had a car that we could drive anywhere. We discovered there was life beyond school dances. Between school and jobs, we really didn't have time for much else. Yet, somehow we found the time to make it to one or two dances, just in case.

Inherit The Wind

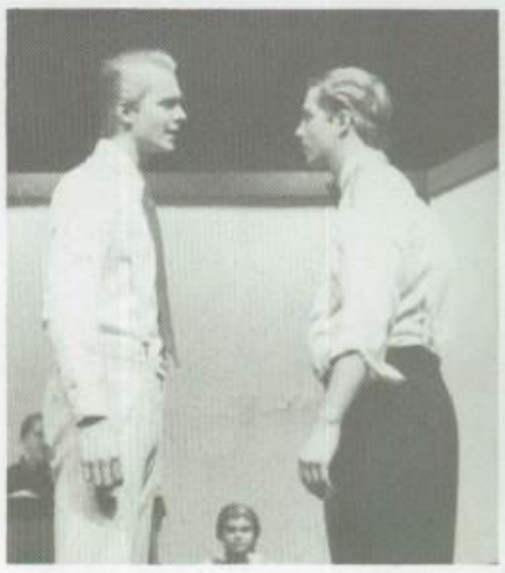
The year is 1925, and the place is Hillsboro, Tennessee. Everyone believed that God created everything, and nobody doubted His word.

It all started when a school teacher named Bertram Cates told his class about how the world was created from little bug-like things called cells. He was proposing Darwin's Theory of Evolution.

The children didn't think much about what they were learning. The trouble started when their parents found out. The town of Hillsboro sent Bertram Cates to jail for teaching things that weren't true, and also put him on trial.

The trial was unfair in many ways. Henry Drummond, Cates' lawyer from Chicago, sent for 15 people to testify for Cates. Most of them were Professors with degrees in zoology or archeology. None of them were allowed to testify because Matthew Brady, the prosecutor, said that Bertram Cates was on trial, not the Theory of Evolution.

When the trial was over, Bertram Cates was found guilty of teaching evolution against the Bible, and fined $100. His case was appealed to the Supreme Court.



FEUDING AGAIN — as we see Henry Drummond (Joe Olson) and Matthew Brady (Troy Klevgard) go at it one more time.

GODSPELL

Kayla Atkins

The first musical presentation in many years rocked the high school auditorium when an energetic blast of experimental theater struck St. Francis with the spring performance of *Godspell.*

Rubber chickens, roller skates, tin foil people, acting in the aisles, flower children, music, spotlights, dancing, a menagerie of individuality . . . well, I guess you had to be there to experience the unique thrill of *Godspell.*

Director Holly Mullen chose the rock musical based on the Gospel according to Matthew as an opportunity for a talented group of student actors to get "more variation in their drama backgrounds."

"Many of these kids will have theater in their futures," says Mullen, "and this play always looks good on a resumé."

The cast exploded with enthusiasm on stage. The power of the play was amplified by the band "Bill Seath and the Thunder Chickens."

YIPEE! Troy Klevgard catches Joel Olson.

An Elegant Affair

As everything else went through changes, Prom was no exception. Some of the changes were necessary. This made Prom unique from Homecoming and Snow Week.

Prom was held on May 4 in the Marquette Inn Ballroom and part of the IDS Crystal Court in Minneapolis. The entertainment was provided by the Castaways, and their music was mostly from the 70's.

Now for the changes.

The first change was optional. It was the decision to have hors d'oeuvres served during Prom. The only problem was hardly anybody ate anything because most of us were already full from our extravagant dinners.

Here's the *almost* change.

In April, a petition was star to allow Sophomores to go Prom *if* they were accompan by a Junior or Senior. Mr. Hubb turned the proposal down (p sented by Maria Mayers) cause of the short amount time before Prom. Mr. Hubb did, however, leave possibili open for the 1986 Prom.

Now here's the *necess* change.

The magazine sale did poo so Juniors who did not sell *at le one* magazine had to pay $5 attend prom.

Even with all the chang though, the Prom committee w able to pull off An Elegant Aff

Snow Week 198
Another Positive Chang

Change struck like lightning once again at Frannytown — this time for Snow Week. The changes were accepted with good responses, as the Homecoming changes were.

The first change was that the Coronation was held during the pep fest, instead of during the Snow Ball (alias the dance), to once again include the entire school body.

One of the major changes was that the students voted for the twelve candidates only — not the King and Queen. Instead, each Queen candidate was given a rose wrapped in tissue paper, and each King candidate an envelope. For the Queen candidates there were five red roses and one yellow. The one who picked the yellow rose was crowned Queen (Aimee DuBois). For the King candidates, the one who picked the envelope with an 'X' marked on a piece of paper was crowned King (Brian Allen).

Another change was that the Master and Mistress of Ceremonies (Joel Olson and Kayla Atkins) were not voted upon but selected by the Student Council.

The "high point" of Snow Week was definitely the Air Band Contest. Some "bands" practiced, while others decided just before the pep fest and pretty much adlibbed. However, they all got attention, and some laughs too.

SNOW WEEK ROYALTY Queen Aimee DuBois and King Brian Allen were chosen.

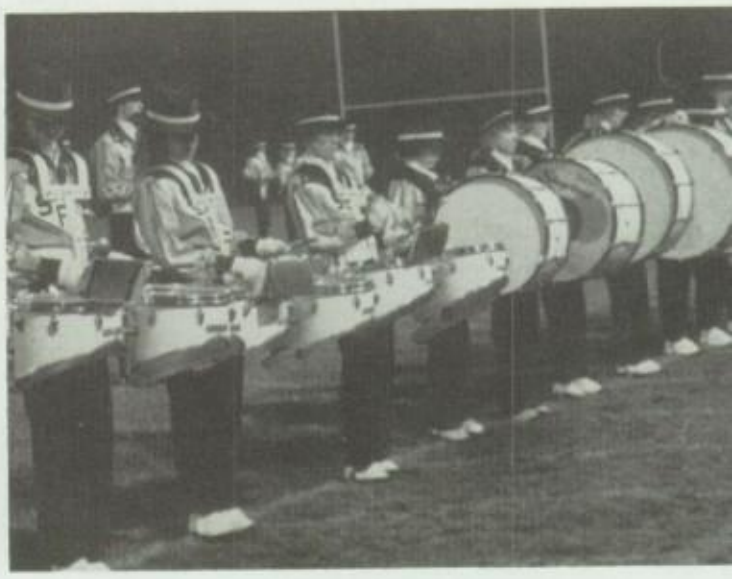
THE 1984-85 ST. FRANCIS "FIGHTING SAINTS" MARCHING BAND.



Marching To The Beat Of A New Drum

This past year was a rebuilding and exciting year for the St. Francis Marching band. New drums and new flags were purchased to add to the excitement. New flagline uniforms were made by Lori Krause. Taina Reller led the band as the drum major for both the winter and fall seasons. Another exciting feature was the addition of majorettes Kathy Hemphill, Kara Miller, and Sue Yarbrough.

During the summer, the band performed at nine parades, including the Minneapolis Aquatennial Torchlight Parade. At Forest Lake, the band placed first among some top bands in the state. In the fall, the band performed at four football games. They were chosen by WCCO as the "Pep Band of the Week." With Mr. John Zschunke as director and many talented musicians, the St. Francis Marching Band should be very exciting for many seasons to come!

Jazzin' Up The Ordway

The 1984-85 school year was an exciting one for the St. Francis Jazz Bands. They were invited to perform for the annual Minnesota Music Educators Association held at the newly opened Ordway Theatre in St. Paul during the last weekend in February. They were chosen for their outstanding jazz performance. The All-State Band performed on WCCO Radio and at the Radisson Hotel in St. Paul during the same week.

Mr. Richard Foley, director of the Jazz, Concert, and the Varsity Bands, and the Minnesota President of the National Association of Jazz Educators, was also interviewed on WCCO.

St. Somewhere's Time Capsule

What is the LANCE? Is it more than just a collection of pictures, essays, and paraphernalia? Of course it is. It is a collection of memories, of styles, and it is a pattern of what was modern in the past. The LANCE is a Time Capsule for St. Somewhere.

ST. SOMEWHERE?! What's that? St. Somewhere is us. All of us. We don't all live in St. Francis itself, we come from all over the counties of Anoka and Isanti. Some believe St. Francis should possess two population signs: one for "School in Session", and another for after 4:30. We've won Debate Championships, Speech Tournaments, and Marching Band Trophies. Yet everyone (or nearly everyone) has experienced the uneasy feeling of being asked where St. Francis is, or for confirmation of the rumor that St. Francis is just another Catholic girls' school. Some even question our existence. Well, we do exist. Somewhere.

New Format Equals Better Reporting

The CRIER Magazine. No, wait a minute, it's a newspaper now, isn't it? Yes, that's right. The CRIER changed their format two years ago. Like Coke, they changed so they could win a larger public. Unfortunately, it didn't work. Even with the lower price of the CRIER, subscriptions and readership remain at the same levels as before.

More than the format has changed, however. It is said that the CRIER is more "newsy" this year, and that the stories are coming from a more serious viewpoint. This may be an advantage. It is the function of any school newspaper to let the public know of any possible problems in the school, to voice the students' opinions, and to provide student writers with valuable experience that might be necessary in today's work-a-day world.

The Greatest Thing I've Ever Been Forced Into

When passed into ninth grade, my mom talked me into joining debate, I didn't want to, but I went along with it, anyway. It was the greatest thing I've ever been forced into. Suddenly I was starting to meet people who were like me. I had something to stay after school for, and I was starting to find my place in a group. If it weren't for debate, I don't know where I'd be right now.

When I think back over it, I realize that when you're in a circumstance like this, there's nobody else who cares, so if you want out you've got to help yourself. You've got to be the one to put all the effort into meeting other people, because if you don't, nobody will.

Worth Noting (So We Did)

1. A team record was set during the season by winning *thirty-one* trophies, plaques, and/or awards, not including individual speaker awards.
2. For the first time, two different times this season (at Duluth, then at the Governor's Cup), two St. Francis teams met in break rounds. Very simply, this means that the only teams that could knock St. Francis out of these tournaments were other St. Francis teams.
3. For the fourth time in the past five years, St. Francis won both the Varsity and Novice divisions.
4. For the third consecutive year, St. Francis was represented at the State Tournament. This year, however, St. Francis had *two* teams qualify for the Tournament. Only St. Francis had two teams reach the quarterfinals, as well as having the unique honor of being represented by three juniors at State.
5. For the fourth consecutive year, St. Francis was represented at the National Tournament in Debate --- by Maria Mayers and Kris Bolstad.

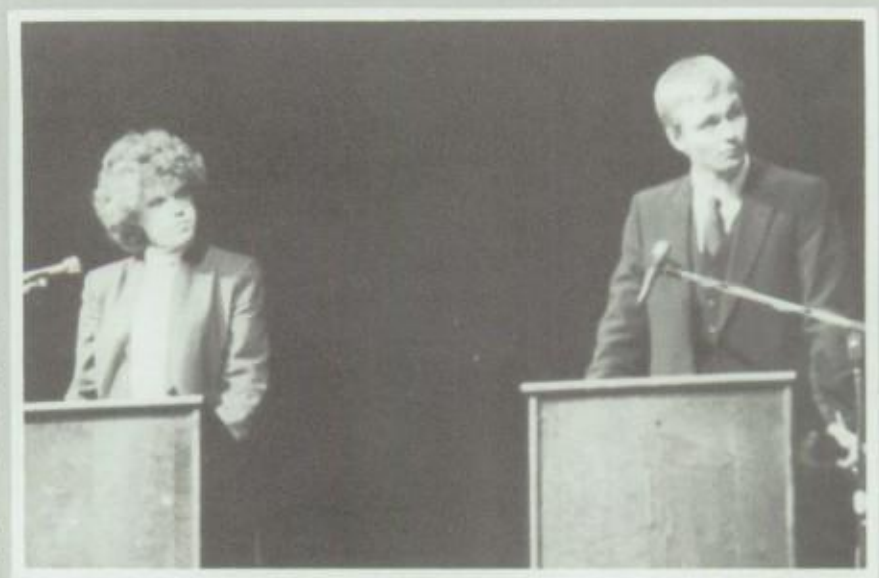
Political Science Students Debate 1984 Election Issues

A mock presidential debate was the highlight of a new Political Science class taught by Mr. Lorenzen. A few days before the real presidential election, the class staged a debate which filled the auditorium with interested students from other classes and study halls.

The main roles were performed by Ed Yarbrough as President Reagan, Bruce Wenger as Vice President George Bush, Joe Olson as Democratic candidate Walter Mondale, and Kris Bolstad as the first woman vice presidential candidate Geraldine Ferraro.

The purpose of the project was to allow students to learn about the presidential election through research and actual participation in the simulation debate. The class increased student awareness of our political process and of the major issues of the 1984 election.



THE MONDALE-FERRARO TICKET: Kris Bolstad and Joe Olson play the parts of Democratic candidates Geraldine Ferraro and Walter Mondale during the 1984 mock debate.

Mr. Noel Johnson attended high school in Virginia, MN. He went on to receive his Bachelor of Science degree at the University of Minnesota-Duluth in Physical Science and Mathematics. He later traveled to Southern University in Baton Rouge, Louisiana, and received a Masters degree in Chemistry.

Mr. Johnson got his first teaching assignment in Detroit, Michigan, before moving to Babbitt, MN. He then decided to pursue a Ph.D. and chose the University of Minnesota to continue his studies. At this time, Mr. Johnson acquired a position teaching Biology at St. Francis High School. Soon, he was involved in computer classes and planning at the high school as the influx of computers began to boom in education.

In the 1984-85 school year, Mr. Johnson received a $5,000 grant from the Wilson Learning Cooperation towards completing his dissertation. Mr. Johnson hopes to finish his Ph.D. in Computer-Based Education by the start of the 1985-86 school year.

Construction Trades Builds The "Real" Thing

St. Francis students in Construction Trades class taught by Mr. Denny Linders enjoyed a "real" building experience during the 1984-85 school year. They built a house.

The project, a program of Oak Land Vocational Center and Director Lynn Salisbury, was okayed on Nov. 1 and finished at school's end. A team of 15 student builders spent two hours a day completing every aspect of the construction except plumbing and electrical work.

The house, a cedar-sided, 3-bedroom rambler, covers 1,200 square feet and was completed for a total cost of approximately $18,500. The house was sold by bid during the summer.

The leader of this delightful invasion as new art teacher Mrs. Laurie Sved- erg-Reker. She came to the senior gh after seven years at the St. Fran- cis Middle School. With her came an abundance of innovative ideas and an inspirational attitude that spread throughout the school in the form of student art.

"Artistic talent shouldn't be kept secret," says Svedberg. "It should be exposed, and that has a positive effect on the personal pride of the individuals."

The "Saints Have Strong Arts" campaign was Svedberg's way of encouraging students to give their artistic interests an outlet.

Saints get taste of "AA"

The Saints experienced a strong dose of "AA" competition in 1984. Four tough new opponents gave the Saints a super challenging schedule.

Tough losses turned out to be the story for the Saints as they dropped hard-fought verdicts to state-rated Brainerd (14-6) and St. Cloud Tech (14-0).

The two toughest losses came at the hands of Rum River Conference foes Cambridge (7-0) and Princeton (6-0). Despite finishing with a disappointing 2-7 record, the Saints were within striking distance in nearly every game.

The team defense, led by seniors Chad Newman and Curt Moe, turned in outstanding performances throughout the season, even though they were on the field for the majority of most games.

Offensively, the Saints' passing game established school records for completions and total yardage. Senior Jamie Heipel sparked the aerial game at quarterback with seniors Scott Goltz and Joel Shipman leading the receivers. They all ranked at the top of the conference.

Special teams play was an area of great improvement as kick coverage and kick return squads both had fine seasons.

Most Saints expressed frustration following the season. They felt that the team just couldn't seem to put it all together at one time. Injuries also played a role in adding to the team's tough luck.

All-Conference honors went to seniors Newman (linebacker), Tim Frischmon (tackle), and Moe (nose guard). Honorable Mention honors went to Jimmy Weidner (defensive back), Heipel and Shipman.

Individual team awards were presented to John Tradewell (Most Improved Lineman), Moe (Hammer Award), Goltz (Most Improved Receiver), and Frischmon (Double Axe).

Saints' Wacky Cover Ground

The "Doi Bois" were the pacesetters for the best boys' cross country team in St. Francis history.

Senior Derrick Poirier (alias Poi Doi) was the individual leader on a team that claimed the conference championship for the third straight year, placed second in the Region Meet, and captured eighth at the State Meet.

Poirier capped a super season with a fifth-place finish in the state to earn All-State honors from the Cross Country Coaches Association.

Poirier paced the boys to a fantastic conference championship performance at Milaca with an individual first-place finish followed by Brian Allen (4th), Greg Johnson (6th), Rich Doll (7th), and Jeff Latvala (8th). That quintet earned All-Conference honors.

The girls' team placed second in the conference as Karen Drevdahl (5th), Shelly Nelson (9th) and Joanie Lawrence (10th) earned All-Conference honors. Leah Parsell was Honorable Mention.

"These teams, both the boys and the girls, tried to make the training and competing fun," said Coach Al Angell. "They never lost sight of their goals."

Individual team awards went to Poirier and Drevdahl (Most Valuable Runners), and Jim Whittier and Kris Priem (Most Improved Runners).

It was the first St. Francis cross country team to qualify for the state meet, and the "Doi Bois" — Poirier (Poi Doi), Allen (Bri Doi) and Dan Hintz (Dan Doi) were an important motivating factor, in their own wacky way.

READY, SET, GO! The Saints' front line includes Leah Parsell, Cherie Allen, Terri Parsell, Shelly Nelson and Joanie Lawrence.

Saints Endure Disappointment

Underclassmen, inexperience, newcomers, and a string of defeats summarize the 1984 girls' tennis season.

The team started with three seniors (Shelly Froemming, Cheri Chapel, and Kelly Nevala, who was forced to bow out later with a knee injury) and only two juniors (Bonnie Bickford and Kirstin Chatfield). After being outscored 23 matches to two in the opening five contests, it was clear the Saints needed help and experience. They got both as the season progressed.

Seniors Shelly Peterson and Sue Macal decided to join the team in the middle of the season. They were welcomed aboard, and their athletic ability helped stabilize the lineup even though both were new to the sport.

The Saints snapped their losing streak with a 5-0 shutout over North Branch, and they finished the campaign much stronger with four of their last five losses coming by a single match.

Despite a disappointing 2-11 record, the Saints were a determined team. Unable to set high team goals, everyone gave their individual best stroke.

Shelly Froemming, the No. 1 singles player, earned All-Conference honors. Sophomore Tracey LaRose was named the team's Most Improved Player.

It was a difficult season, especially for team members who had played in other years. But these Saints had their hearts in every match. Hopefully, that spirit helps the underclassmen grow along with their talent and experience.

Dr. Jekyll And Mr. Hyde Follow Saints All Season

If you followed Saints' volleyball during the 1984-85 season, you know that when you came to a match you didn't know what to expect. The Saints could play like a championship team, or they could play like a team struggling to win.

It was a "Jekyll and Hyde" season.

After a tough opening-game loss, Dr. Jekyll was in control as the Saints posted consecutive wins over Minneapolis Edison, Milaca, Pine City and Cambridge. The Saints were off to a 3-0 conference start.

Mr. Hyde made his first visit during a three-game slump, but STF was still unbeaten in the conference when a key clash with Sauk Rapids arrived. The Saints prevailed to remain the conference leaders.

Mr. Hyde sneaked back on the scene as STF dropped three straight conference matches. Dr. Jekyll came to the rescue, and the Saints rebounded with three wins in a row.

Re-enter Mr. Hyde and another three-game streak on the down side. The Saints needed a shot of volleyball medicine heading into tournaments.

Dr. Jekyll responded and STF scored playoff wins over Mora, Foley and Princeton to earn a trip to Duluth for regionals.

Duluth Denfeld-Morgan Park ended the season for St. Francis.

It had truly been a season of shifts. Dr. Jekyll and Mr. Hyde followed the Saints all the way to a final record of 14-13.

Seniors Tammy Frost (setter) and Michele Schefers (attacker) were named All-Conference while sophomore Bridgette Stream (attacker) was Honorable Mention.

Individual team awards went to Frost as the Most Valuable Player and senior Lynne "Boom Boom" Berglund as the Most Improved Player.

Despite their shifting moods, the Saints finished second in the conference, never lost on their home court, and placed fourth (highest ever) at the Cooper-Armstrong Invitational.

Goofballs + Volleyballs = Fun

Ability, talent, and craziness ... these 3 words describe the best qualities of the 1984 volleyball team. Inconsistency, attitudes, and individuality ... these 3 words describe some of the not-so-good qualities. The varsity team was unique. It could put it all together at times and be a top competitor. They put their hearts in it, and they kept good spirits when they lost. They were a bunch of crazy Saints, and they were able to make their own fun in every way possible.

Cheerleaders
Believe It

Most of us ordinary people don't realize just how athletic cheerleaders must be in order to do what they do, and survive. They are a special kind of athlete.

Take the opening day of school, for example. While we sit in our t-shirts and jeans, complaining how hot it is, the cheerleaders are bounding about in no less than the basic turtle-neck and bulky cheering sweater. They are in the same 100-degree heat as the rest of us, but they are fully active. We never hear them complaining.

Many of us might say we could go out and cheer as well as any cheerleader, but given the chance, we'd probably turn it down by using some lame excuse like, "I don't have a uniform."

SPIRITED

ATHLETIC

Are Athletes, Too,
Or Not.

That's another thing, "THE UNIFORM!" When someone says "cheerleader," most people probably think of a uniform with a cute girl and nice legs inside of it. But, in actuality, that cute girl is a very dedicated individual. Even when all other fans have lost faith in a team that may be losing, the cheerleaders must maintain their enthusiasm and spirit. Even if the team is struggling and unsure of its chances, the cheerleaders are still making signs, selling spirit boosters, and making morning announcements to promote our team.

Cheerleaders are, indeed, a special brand of athlete.

Injuries Bruise Saints' Chances After Christmas

Basketball has one of the longest seasons. During the long winter, this group of Saints grew close. This special closeness made victories more meaningful and defeats tougher to take.

Entering the 1984-85 season, the Saints had no returning starters. It was to be a rebuilding year for STF.

But the young Saints earned new respect with their early play and took a 4-1 record into Christmas break. Things went sour during the break with three losses at the Bethel Tournament and the loss of three starters due to injuries which haunted the team the rest of the season.

They struggled at mid-season, losing six out of seven games. But closeness kept them working, and they scored surprising wins over Princeton, North Branch and St. Cloud Apollo down the stretch.

After losing to rival Chisago Lakes twice during the season, St. Francis rebounded with an upset to advance to the sub-region finals. Then nemesis North Branch ended the Saints' hopes of a return trip to Duluth and STF finished 10-12.

Senior Troy Wallin and junior Jess Elmquist earned All-Conference honors while junior Matt Ordner was Honorable Mention.

Elmquist led the team in scoring and rebounding and was named MVP. Junior Scott Herrmann won the Hustle Award, and junior Dale Bowles was named Most Improved Player.

Freshmen Motto: "Excellence Without Heighth"

Excellence without heighth could have been the motto for the freshmen boys' team. Despite the tallest starter standing only 6-feet, the first-year Saints compiled an impressive 15-6 overall record, including a 12-1 conference mark, which was best in the league.

"We had to beat our opponents with pressure defense and a fast-break attack," said new boys Coach Jeff Fink.

Leading this squad were Andy Flemming, Cory Wood, and Dennis Moore with consistent scoring and rebounding. Flemming set a freshman season record with 303 points, a better than 16 points-per-game average. Wood also set an individual single-game record when he scored 33 points against Chisago Lakes.

Girls Tough In Conference, Struggle Against Others

In the conference the Saints were tough. But outside the conference the Saints had plenty of trouble.

The girls' basketball team registered another second place finish in the conference. They were in the race for most of the season before settling for a second-place tie. The Saints finished 10-3 against conference opposition and were in the thick of the fight until a home court loss to champion Princeton and an upset loss at Sauk Rapids at the tail end of the season.

Things didn't go so well once the Saints faced non-conference opponents. St. Francis lost seven out of seven games to teams outside the Rum River Conference. That string brought the Saints final record to 11-10.

STF beat North Branch in sub-regionals to advance to Duluth for the region tourney where the season ended with a loss to Duluth Central.

Individual honors were shared in pairs. All-Conference selections were senior Shelly Peterson and junior Heidi Breitzmann. Honorable Mention awards went to seniors Sue Macal and LaRee Winter.

The team's MVP award was shared by Macal and Peterson. Rebounding honors were shared by Breitzmann and Winter. And the Hustle Award was shared by junior Rhonda Johnson and senior Shelly Novak.

The JV and freshmen teams enjoyed successful seasons with 12-5 and 14-3 records, respectively.

Hockey: Yes, No, Maybe?

To skate or not to skate, that is the question the St. Francis School Board had to answer after the Fighting Saints concluded their second season of a two-year trial period for hockey at the high school.

The Saints proved competitive on the ice during their first two seasons of a fledgling program. A surprisingly successful first year had St. Francis posting an 8-10-2 record and placing third in the conference. The Saints finished their second season 5-14-2 with a squad composed mostly of underclassmen.

Due to the financial support of the St. Francis Hockey Association, the sport was started in the 1983-84 season and extended to the 1984-85 season as a trial period. The School Board would then decide whether hockey would become an officially sanctioned athletic activity at the school.

The 1984-85 Saints had a tough-luck start when they dropped three straight games by the same 5-4 score. The Saints ended up losing five games by a single goal.

On the other side of the ledger, four of the STF victories came by one-goal margins. They edged Brooklyn Center 2-1 in overtime, St. Michael-Albertville 4-3, St. John's Prep 4-3, and Sauk Rapids 2-1.

The Saints' only big win came by a 6-2 score over Chisago Lakes.

The team's individual leader was senior winger Jim Weidner. He led the team in goals scored and became the only Saint named All-Conference. Weidner also was named team MVP.

Honorable Mention All-Conference performers were senior winger Bill Kleve (teamleader in assists) and junior center Daryn Bosell (second in goals scored).

Kleve also earned the team's Digger Award for his hard work in the corners. Junior defenseman Chris Stumpf won the Hustle Award, and reserve senior goalie Brian Ricke earned the Best Attitude award.

Improvement marked the young 1985 gymnastics team. Outlooks are bright, especially due to the presence of Kendahl Chouinard, an eighth-grader that made all-around varsity. Besides Chouinard, the team consisted of five juniors, seven sophomores, eight freshmen and six seniors.

Chouinard turned in consistently high scores throughout the season. She was named All-Conference on the balance beam, floor exercise, and received the team's most valuable player award. Other teammates commented, "Kendahl has the advantage of having grace and tumbling skills which will enable her to make it to the top in the future."

Co-Captains Liz Buerkle and Sally Egan, along with Tawni Reller, were very dependable performers. The coaches could count on these people for scoring success in the meets. Other seniors included Tammy Lindgren, Billie Jo Thompson and Amy Spriggs, who received Honorable Mention All-Conference on the uneven bars.

Debbie Tradewell, named most improved gymnast, contributed very well to the varsity season. She was the only freshman to earn a letter.

The team's top score of the season was 123.70, which gave them a second place finish in the North Branch Tournament.

Mat Attack Just Misses

The STF "Mat Attack" fell just shy of two big achievements. The Saints were one match short of winning the conference championship and a match away from qualifying for the state dual meet tournament.

The powerful Saints, who finished 11-4 overall, averaged 40 points per match against conference opponents, but a 27-17 loss to Foley forced STF to settle for second place once again.

In regionals, the Saints advanced to the title match by ripping Cambridge 41-22 and squeaking past Grand Rapids on a criteria decision after a 30-30 tie. A man-power shortage hurt the Saints' championship chances in a 45-9 loss to Hibbing.

Four individuals qualified for the state tournament: sophomores Gary Clem (98), Tony Pederson (112), Tom Kirpach (138), and senior Steve Whiteford (145).

Clem, who compiled a 29-5 record, finished strongest by placing fourth in the state. He led the team in team points, pins (22), takedowns, and near falls.

All-Conference honors went to Clem, Troy Long (105), Pederson, and Whiteford. Kirpach and Greg Hyovalti (132) were Honorable Mention.

Outstanding records were posted by Hyovalti (18-7), Kirpach (21-9), Long (24-4), Pederson (24-8), Whiteford (20-4), and Mark Strandlund (16-12).

The JV team went 10-3 with strong performances from Jerry Nelson (11-1), Travis Englund (13-1), Troy Greene (11-1-1), Tom Schroeder (11-1), and Bob Feigum (13-2).

Girls Wage Rivalry War Vs. Cambridge

There was a rivalry war being waged during the girls' track season. The Saints and Cambridge battled throughout the spring with the Bluejackets claiming a slim 4-3 edge in the head-to-head meetings.

It was a strong season for the Saints, who never finished lower than second place in any meet. They took first place in five of their 11 meets, including a victory in the conference relays and the sub-region meet.

But after building a big lead midway through the conference championships, the Saints ended up losing to Cambridge by a mere four points. All-Conference honors were earned by individual champions Michelle Carpentier (100-M hurdles), Dee Braastad (high jump), Kathy Hemphill (discus), and Shelly Busche (long jump). Two STF relays were victors as Cindy Schuster, Renee Joersz, Kelly Regan and Busche won the 400-M and Carpentier, Regan, Mickey Lepper and Schuster combined to take the 800-M.

The Saints bounced back in the war with our northern neighbor by scoring a team victory over Cambridge in sub-regionals. Nineteen Saints advanced to regions in Chisago Lakes where qualified for state in three events: C pentier (hurdles), Busche (long ju and the quartet of Carpentier, Busc Lepper, and Schuster (400-M relay

Busche claimed the team's M award and established a new sch long jump record at 17'3". Lep claimed the only other school rec with a 0:48.5 in the 300-M low hurd a new event.

Most Improved awards were sha by senior Kathy Hemphill, sophomo Cherie Allen, Dee Dee Dalve, a freshman Jessica Ernst.

They Haven't Run Out Of Gas, Yet

A good mix of athletes led the boys' track team to a second straight conference championship in 1985. Senior Derrick Poirier and junior Scott Bahr were the individual leaders with a solid supporting cast providing the depth for a repeat championship.

Poirier claimed double All-Conference honors with wins in the 1600 and 3200-M runs. He established a trio of school records in the distance events: the 800 (1:58.6), the 1600 (4:17), and added the 3200 record with a 9:21.48 at the state meet. "Poi Doi" capped an outstanding high school running career by qualifying for state in both the 1600 and 3200-M runs, placing 11th and 4th, respectively.

Bahr proved to be the Saints' jumping leader with consistent performance in both the long and triple jumps, as well as aiding relay races. He set a new school record in the triple jump (42'11") and was conference and region champion in that event, going on to place 9th at state.

Team depth was a strength all season. That depth led the Saints to a team win in the conference relays, the first time they've won that meet. The depth was shown in the form of eight runner-up finishes that powered them in winning the conference meet. It also helped STF to a first-place showing in the sub-regional meet and a third-place finish in the 14-team region meet.

Consistent place finishers for the Saints included: seniors Chad Newman (shot put and discus), Rich Doll (800-M and relay anchor), Garry Christensen (pole vault), Dan Hintz (pole vault), juniors Randy Kraft (hurdles), Bill LeTourneau (sprints, long jump), Mitch Coop (high jump, relays), and distance runners Jeff Latvala and Greg Johnson.

Jimmie Johnson Makes State

Sophomore Jimmie Johnson became the first St. Francis tennis player to earn a trip to the state tournament. He pulled the surprise by placing first in the regional singles competition.

After an unspectacular regular season, Johnson got his game together during tournament competition.

"Jimmie worked very hard and put the amount of time into tennis to be successful," says Coach Ron Koehler. "He has excellent ground strokes and is quickly improving the other aspects of his game."

Johnson's qualifying highlighted the season for the young and improving Saints. Overall, STF finished 8-4 in duals and placed third in both the Saints and Spring Lake Park tournaments.

The Saints' top singles players were Johnson (No. 1), freshman Jim Collins (No. 2), and freshman Dave Smith (No. 3). The doubles combinations were senior Morgan Gerhard with junior Mike Holden (No. 1) and senior Chuck Pedley with freshman Stacy Nelson (No. 2). Middle Schooler Chad Johnson was tabbed as the most improved player.

Bat Power Sparks Saints' Attack

The Saints could score runs. Hitting was the main strength of the 1985 baseball team.

During the four-game win streak early in the season, the Saints pounded their foes by an overwhelming 51-13 margin.

Junior Lucas Scardigli paced the hitters with a .385 average and produced 23 runs to become one of the all-time St. Francis RBI men.

Senior Brian Grund earned the team's MVP award with a .380 season average. Other top batters were senior outfielders Jim Weidner (.357) and Dale Groettum (.306). Senior shortstop Troy Wallin tied the school record for most doubles with seven.

Grund and Scardigli were All-Conference selections while Weidner and Groettum earned Honorable Mention.

Sophomore Tom Kirpach was the pitching workhorse. He struck out 66 batters in 56 innings pitched on his way to a 4-5 record.

After a fast start in conference competition, they lost close contests to Pine City, Cambridge, and Sauk Rapids and finished 5-4. Overall, St. Francis posted a 7-10 record.

For the first time, St. Francis was able to field four full baseball teams. The Freshman crew turned in a 4-4 record, the sophomores were 9-4, and the juniors were 1-3.

Tough Breaks Sour Saints' Success

A couple of tough breaks in the last few games dampened an otherwise successful season for the Fighting Saints' varsity softball team.

An experienced returning lineup led by senior pitcher Sue Macal gave the Saints high hopes entering the season. They aimed at another conference championship and, most of all, they wanted another shot at the state tournament for which STF had qualified in both 1980 and 1982.

A controversial call at home plate against Sauk Rapids took the potential winning run away from the Saints, and Sauk Rapids went on to a 5-1 win in extra innings. That game decided the conference title.

The Saints bounced back to advance to the region championship game by defeating Cloquet 6-0 and Duluth Denfeld-Morgan Park 12-8. But the weather turned out to be the Saints toughest foe in the championship. Misplays in the rainy conditions allowed Duluth East to take a 7-2 lead before the game was suspended after the only three innings. The Saints had to return to Duluth two days later and complete the game the morning after graduation.

This time the Saints dominated, but they couldn't quite make up the difference in suffering a 7-5 defeat.

"Those two games made it a tough season," says Coach Vern Gilbertson. "We had an umpire's decision take a game away from us, and then two rain errors that gave Duluth four unearned runs made it a difficult way to end the years."

The Saints finished 13-3 overall and were led by Macal, who earned her third consecutive team MVP award. She struck out 70 opponents in 80 innings pitched and turned in a sparkling 1.05 earned run average. She also paced the team in hitting with a .500 average, hits (23), run scored (21), and RBI (26).

Senior Michele Schefers pitched well with a 2.74 ERA and also helped at the plate with a .296 batting average, Senior left fielder Aimee DuBois was another hitting leader with a .311 average.

Macal, DuBois, and senior catcher Shelly Froemming were named All-Conference while Schefers and senior third baseman Barb Mueller were Honorable Mention.
